Review of NIS-23, Section 63, Minerals and Metals, Bulgaria

1. Subject Section has been reviewed by GG/E as per your request. We have no comments or suggestions regarding substantive content.

2. A spot check was made of place name spellings and geographical coordinates as given in the NIS Gazetteer for Bulgaria, but the few discrepancies noted did not seem to warrant a complete detailed check. Marginal comments on these items have been made on the pages indicated by paper clip.
